Low Maintenance Composite Cladding

TRUclad is a revolution in composite cladding distributed throughout the UK by its trusted partners.

A market leading composite cladding board, TRUclad is produced with 63% wood powder, 29% recycled plastic HDPE, 8% Glue, colours, and anti-fungal agents. The mix of materials brings not only stability but also durability, creating an attractive and strong composite cladding board. The high quality composite outer skin is available in four elegant colours with a vibrant finish to create a focal point for all garden types.

TRUclad is fixed at 400mm centres and fitted using provided screws to assist quick installation and longevity of the product.
