

# Mezzanine Flooring Reaction to Fire Ratings

## In accordance with EN13501-1

As well as providing excellent structural performance the STREbord® 38mm chipboard flooring are also tested in accordance with the latest requirements for reaction to fire. Our range of floor and ceiling finishes offers complete confidence that the product will perform reliably in their end use and all in combination with our renowned combination of wear resistance, grip and low maintenance.

### Classification

The classification is split into three parts: the Main Classification, the Smoke Classification and the Flaming Droplet Classification.

#### 1 Main Classification

Indicated by a letter from **A** to **F** with **A1** being the highest classification and **F** being the lowest.

#### 2 Smoke Classification

Indicated by the alphanumeric combination **s1**, **s2** or **s3** with **s1** the highest and **s3** the lowest.

#### 3 Flaming Droplet Classification

Indicated by the alphanumeric combination **d0**, **d1** or **d2** with **d0** the highest and **d2** the lowest.
